

Jagan Mohan Reddy R

+91 9676333684 | jagan.rym@gmail.com | Hyderabad, India | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

- IT and Cybersecurity Leader with 20+ years of experience, including a decade focused on protecting enterprise environments across Healthcare, BFSI and Manufacturing.
- Experienced in SIEM and SOC operations (Microsoft Sentinel, Defender XDR), incident detection and response, Identity & Access Management, GRC and hybrid/multi-cloud security (Azure, AWS, on-prem).
- Built and led security teams, managed cybersecurity engagements for a US healthcare client with 20+ engineers and consultants, and delivered programs aligned to NIST CSF and ISO 27001.
- Currently focused on using AI to detect and fix threats faster, while securing AI and agentic AI environments.

CORE SKILLS

Security Operations & Detection: Incident Detection & Response | SIEM (Microsoft Sentinel) | SOAR | SOC Operations | Defender XDR (Endpoint, Office 365, Cloud) | Detection Tuning & False-Positive Reduction

Leadership & Client Engagement: Team Leadership & Mentoring | Stakeholder Management | Executive Reporting | Cybersecurity Engagement Delivery | RFP/RFI, SoW, HLD/LLD | Pre-Sales Solutioning

Governance & Compliance: GRC | NIST CSF | ISO 27001 | CIS Benchmarks | Risk Assessment | ISO/IEC 42001 (AI Governance)

Cloud & Identity: Hybrid & Multi-Cloud Security (Azure, AWS) | CSPM | Zero Trust Architecture | IAM/IGA (Entra ID, SailPoint, Saviynt) | PIM / Just-In-Time Access | Non-Human Identities

PROFESSIONAL EXPERIENCE

Technical Architect(Role: Account Manager) | **Akkodis Technologies** *Jan 2026 – Present*

- Directed SOC operations, multi-cloud (Azure and AWS) security architecture, IAM and GRC programs, strengthening real-time threat detection and response while keeping delivery compliant with NIST CSF and ISO 27001.
- Led Zero Trust architecture combining IAM, MFA, PIM and SIEM to improve visibility and reduce risk.
- Kept security operations compliant with ISO 27001 and NIST CSF, aligning them to regulatory standards.

Sr Manager – Cybersecurity (Equivalent to Technical Account Manager) | **Providence Global Center** *Jan 2025 – Jan 2026*

- Oversaw the cybersecurity engagement model, capabilities, programs and services across SOC, IAM, Cloud Security and GRC.
- Implemented SOC operations and SIEM integration, supporting real-time monitoring, detection and response.
- Led cloud security and governance programs for hybrid environments, with compliance frameworks built into delivery.

Lead Consultant | **Infosys** *Jun 2021 – Jan 2025*

- Led the consolidation of hybrid environments (on-premises, Azure and AWS), including assessment, sizing and capacity planning.
- Designed secure hybrid cloud architectures across Azure, AWS and on-prem, aligned to the Well-Architected Framework.
- Supported pre-sales activities, including solution architecture, technical proposals and Statements of Work (SoW).

Earlier Experience

- **Sr. Technical Lead** | **Yash Technologies (Dec 2015 – Jun 2021)** – Directed a 12-member team handling IT infrastructure support alongside cloud tenant migrations for M&A integrations.
- **Technical Services Specialist** | **KantarITP / IBM India (Oct 2009 – Dec 2015)** – Managed enterprise Active Directory, messaging infrastructures, and data recovery strategies for 40,000+ end-users.
- **System Engineer** | **Intelligroup / NTT Data (Jan 2007 – Oct 2009)** – Administered core Active Directory frameworks and enterprise Exchange Server infrastructure environment support.
- **Engineer – Server Management** | **Wipro Infotech (May 2005 – Jan 2007)** – Served as the primary datacenter technical anchor providing core infrastructure maintenance for Windows servers and networks.

SELECTED ACHIEVEMENTS

- **Incident response:** Improved Mean Time to Detect by 60% and Mean Time to Respond by 30% by streamlining the security operations pipeline.
- **SIEM optimization:** Refined correlation rules and custom analytics in Microsoft Sentinel to reduce false positives and speed up operations.
- **Zero Trust:** Designed and executed an enterprise-wide Zero Trust architecture using Microsoft Entra ID, Defender XDR and Sentinel.
- **Cloud posture:** Deployed Defender for Cloud across Azure and AWS, raising the CSPM score above 80%.
- **Engagement leadership:** Managed a cross-functional cybersecurity portfolio for a premier US healthcare client, leading 20+ engineers and consultants across IAM, Cloud Security, GRC, Email Security and Network Security.
- **Risk reduction:** Reduced access-related security risk by 70% and access-related service tickets by 90% through IGA transformation and automated provisioning.
- **Privilege control:** Removed standing admin privileges by moving to Just-In-Time access with Entra PIM and enforcing least privilege/RBAC on Tier-1 applications.
- **Audit and compliance:** Ran an identity audit mapped to NIST CSF and ISO 27001 and remediated gaps (MFA exclusions, standing privileged access, dormant accounts, unmanaged non-human identities) through a phased risk-reduction program.
- **M&A and demerger security:** Led security integration for M&A and demerger programs, deploying Entra ID, Defender XDR and Sentinel to standardize security posture for newly acquired business units.

EDUCATION & CERTIFICATIONS

- Master's in Computer Science, Osmania University
- SC-100: Microsoft Certified: Cybersecurity Architect Expert
- SC-300: Microsoft Certified: Identity and Access Administrator Associate
- AZ-104: Microsoft Certified: Azure Administrator Associate
- AZ-305: Microsoft Certified: Azure Solutions Architect Expert
